I'm so excited to tell you about a new anti-aging technology that is taking the skin care world by storm. It's big in the UK and Canada and it's just now hitting the United States. I've been ready for something new and different and this is it! It's called OxyGeneo.

What makes OxyGeneo™ the new super-facial? You get the exfoliation benefits of microdermabrasion (without the suction to potentially break capillaries) plus deep facial rejuvenation with the infusion of essential revitalizing nutrients and healing skin oxygenation from within. OxyGeneo™ treatments are suitable for all skin types - any ethnicity and even sensitive skin.

The three aspects of an OxyGeneo treatment are:

1. Exfoliate: Similar to microdermabrasion (but with not suction), the OxyGeneo™ exfoliates the upper skin layer to remove dead cells, smooth and renew the skin, preparing it to receive active nutrients. The OxyGeneo hand piece is fitted with a Capsugen capsule which is a soft exfoliating head made of sodium bicarbonate, citric acid and magnesium. This is safe on all skin types and can even treat sensitive skin without any irritation.

The 3-in-1 Super Facial

2. Infuse: Through this exclusive Capsugen, the OxyGeneo™ cleanses the skin while infusing nutrient-rich active ingredients. You choose between the Neo-Revive™ for rejuvenation and anti-aging or NeoBright™ for skin brightening and texture improvement.

3. Oxygenate: The OxyGeneo™ produces CO2 bubbles which gently burst on the skin surface creating a physiological response, sending oxygen-rich

MY PREDICTION IS THAT THIS IS GOING TO BE THE NEXT BIG TREND IN FACIAL TREATMENTS FOR THOSE WANTING INSTANT GRATIFICATION AS WELL AS LONG TERM CHANGES. I BELIEVE THAT WE WILL BE HEARING ABOUT IT FROM THE MEDIA BECAUSE IT'S GOING TO HIT THE HOLLYWOOD SCENE VERY SOON!

blood to the area, increasing capillary flow and skin metabolism. This results in optimal absorption of active ingredients for hydration, brightening and firming.

After my first treatment I immediately noticed a brightening to my skin and I was pleasantly surprised at how firm my face felt for the next 5 days. Especially my jawline!! That was something I was not expecting.
